No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (27 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1988 articles are as shown on the article title pages; if no fee code appears on the title page, the copy fee is the same as for current articles.

Contents of Volume 7

NUMBER 1, FEBRUARY 1988

SUSAN C. FISCHER AND JAMES W. PELLEGRINO. Hemisphere Differences for Components of Mental Rotation	1
CAROL S. SWINDELL, AUDREY L. HOLLAND, DAVIDA FROMM, AND JOEL B. GREENHOUSE. Characteristics of Recovery of Drawing Ability in Left and Right Brain-Damaged Patients	16
ROBERT P. HART, JOSEPH A. KWENTUS, STEPHEN W. HARKINS, AND JOHN R. TAYLOR. Rate of Forgetting in Mild Alzheimer's-Type Dementia	31
JOSEPH B. HELLIGE, JON E. JONSSON, AND CHIKASHI MICHIMATA. Processing from LVF, RVF and BILATERAL Presentations: Examinations of Metacontrol and Interhemispheric Interaction	39
M. RUSSELL HARTER, SCOTT DIERING, AND FRANK B. WOOD. I. Separate Brain Potential Characteristics in Children with Reading Disability and Attention Deficit Disorder: Relevance-Independent Effects	54
SANDRA LAYMAN AND ERNEST GREENE. The Effect of Stroke on Object Recognition	87
M. RUSSELL HARTER, LOURDES ANLLO-VENTO, FRANK B. WOOD, AND MARY M. SCHROEDER. II. Separate Brain Potential Characteristics in Children with Reading Disability and Attention Deficit Disorder: Color and Letter Relevance Effects	115
PAPERS TO APPEAR IN FORTHCOMING ISSUES	141

NUMBER 2, APRIL 1988

LAIRD S. CERMAK. Prologue to Single-Case Studies in Amnesia: Theoretical Advances	143
LAIRD S. CERMAK, SUSAN P. BLACKFORD, MARGARET O'CONNOR, AND REBECCA PRATT BLEICH. The Implicit Memory Ability of a Patient with Amnesia Due to Encephalitis	145
JOHN D. E. GABRIELI, NEIL J. COHEN, AND SUZANNE CORKIN. The Impaired Learning of Semantic Knowledge following Bilateral Medial Temporal-Lobe Resection	157
MARY LOU SMITH. Recall of Spatial Location by the Amnesic Patient H.M.	178
ELIZABETH K. WARRINGTON AND ROSALEEN A. MCCARTHY. The Fractionation of Retrograde Amnesia	184
DAVID P. SALMON, BRUCE R. LASKER, NELSON BUTTERS, AND WILLIAM W. BEATTY. Remote Memory in a Patient with Circumscribed Amnesia	201
ALAN BADDELEY AND BARBARA WILSON. Frontal Amnesia and the Dysexecutive Syndrome	212

ALAN J. PARKIN, NICHOLAS R. C. LENG, NICOLA STANHOPE, AND ANDREW P. SMITH. Memory Impairment following Ruptured Aneurysm of the Anterior Communicating Artery	231
PAPERS TO APPEAR IN FORTHCOMING ISSUES	244

NUMBER 3, JUNE 1988

RAYMOND KLEIN AND JULIA MCINNES. Visual Field Differences in the Processing of Numerical Stimuli	247
BARRY GORDON. Preserved Learning of Novel Information in Amnesia: Evidence for Multiple Memory Systems	257
HARVEY S. LEVIN, FELICIA C. GOLDSTEIN, WALTER M. HIGH, JR., AND DAVID WILLIAMS. Automatic and Effortful Processing after Severe Closed Head Injury	283
MARY L. PREVEY, RICHARD C. DELANEY, AND RICHARD H. MATTSON. Metamemory in Temporal Lobe Epilepsy: Self-Monitoring of Memory Functions	298
LAIRD S. CERMAK, REBECCA PRATT BLEICH, AND SUSAN P. BLACKFORD. Deficits in the Implicit Retention of New Associations by Al- coholic Korsakoff Patients	312
PATRICIA P. VAN EYS AND WALTER F. MCKEEVER. Subject Knowledge of the Experimenter's Interest in Handedness and Familial Sinistrality Variables and Laterality Test Outcomes	324
ERIC GRANHOLM AND NELSON BUTTERS. Associative Encoding and Retrieval in Alzheimer's and Huntington's Disease	335
SEVERINE SAMSON AND ROBERT J. ZATORRE. Melodic and Harmonic Discrimination following Unilateral Cerebral Excision	348
WALTER H. RIEGE, E. JEFFREY METTER, AND WAYNE R. HANSON. Apparent Shift in Visual Field Preference after Unilateral Stroke	361
NOTES AND DISCUSSION	
RAYMOND BRUYER. Some Masked Inconstancies about Con- stancy	374
MORRIS MOSCOVITCH. Further Analyses of Masking Functions in Laterality Studies of Face-Recognition	377
DEREK BESNER AND M. P. BRYDEN. Rolling the Dice: A Comment on Klein and McInnes "Visual Field Differences in the Processing of Numerical Stimuli"	381
RAYMOND M. KLEIN AND JULIA MCINNES. Visual Field Interacts with Script Type When Numbers Are Presented for an Odd/Even Judgement: A Response to Besner & Bryden	388
CHRISTINE CHIARELLO. More on Words, Hemifields, and Hemi- spheres: A Reply to Schwartz and Kirsner	394
PAPERS TO APPEAR IN FORTHCOMING ISSUES	402
AUTHOR INDEX	404

Information for Contributors

Brain and Cognition publishes original research articles, case histories, critical reviews, and scholarly notes; contributions will be concerned with any aspect of human neuropsychology, other than language. Appropriate topics include movement, perception, praxis, emotion, memory, and cognition, in relationship to brain structure and function. *Brain and Cognition* will publish experimental research papers, clinical case histories, reviews, short notes (limited to under 10 pages typed), and discussion/commentary articles. Book reviews may be submitted for publication and will also be solicited; of particular interest are those book reviews that, in addition to critically summarizing a book's content, make a scholarly contribution in their own right.

Submission of Manuscripts. Manuscripts should be submitted to:

Brain and Cognition
Editorial Office
Seventh Floor
1250 Sixth Avenue
San Diego, California 92101

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be nor is presently submitted elsewhere, and that its submission for publication has been approved by all of the authors and by the institution where the work was carried out; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in *Brain and Cognition* represent the opinions of the author(s) and should not be construed to reflect opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any reasonable request by the author for permission to reproduce any of his or her contributions to the journal.

Form of Manuscript. Authors should submit manuscripts in *quadruplicate* (one original and three copies), typewritten, double-spaced on one side of 8½ × 11-in. white paper. The original and two copies of all artwork, tabular material, photographs, etc., must also be included. All pages should be numbered consecutively.

Page 1 should contain the article title, author(s) name(s) and affiliation(s), abbreviated form of the title for the running page heading (not to exceed 35 characters including letters and spaces), and the complete mailing address of the author to whom all correspondence should be sent. *Page 2* should contain a short *abstract* of approximately 100 words.

Papers must be written in English. Language data may be given in English when clearly identifiable, otherwise it should be transcribed into the phonetic alphabet of the International Phonetic Association (IPA).

Figures should be numbered in order of appearance (with Arabic numerals) and should have short descriptive captions (typed double-spaced on a separate page). Line drawings must be originals in black India ink on white paper, on polyester drafting film, or comparable glossy black and white photographs. Lettering should be uniform, professionally done, and large enough to be fully legible after a 50–60% reduction in printing. Illustrations in color can be accepted only if the authors defray the cost.

Tables should be numbered in order of appearance (with Arabic numerals); they should be typed double-spaced on a separate page. Each table should have a short descriptive title typed (double-spaced) above the table. Footnotes to tables (indicated by superscript lowercase letters,^{a,b}, etc.) should be typed (double-spaced) at the end of the table. Keep in mind the dimensions of the journal when planning the number of columns in a table.

Footnotes to the text should be kept to a minimum; when necessary, they should be indicated by superscript Arabic numerals,^{1,2} etc., cited consecutively throughout the article, starting with the title. They should be typed double-spaced on a separate page.

References should be cited in the text by surname of the author and the publication date in parentheses, e.g., Goldstein (1980) or (Russell & Espir, 1981). If more than one paper was published by the same author in a given year, the correct style is Broca (1982a) or Broca, (1982b).

References should be listed alphabetically, typed double-spaced at the end of the article. All references cited in the text must be listed at the end of the paper. Journal titles should be written out in full, not abbreviated. Note the following examples.

Fromkin, V. 1980. *Errors in linguistic performance*. New York: Academic Press.

Kamptner, L., Kraft, R. H., & Harper, L. V. 1985. Lateral specialization and social-verbal development in preschool children. *Brain and Cognition*, 3, 42-50.

Bryden, M. P. 1978. Strategy effects in the assessment of hemispheric asymmetry. In G. Underwood (Ed.), *Strategies of information processing*. New York/London: Academic Press.

(Use underlining for journal and book titles only.)

Proofs. Proofs will be sent to the designated author, with a reprint order form. Authors will be charged for alterations in excess of 10% of the cost of composition.

Reprints. Fifty (50) reprints without covers will be provided free of charge for articles. Additional reprints may be purchased; an order form will be included with proofs.
